

Name _____
Date _____ Per _____

Student Handout:
**Activity #4 (Reading and Analyzing GeneChip® Microarrays – Results
from Real Life Scenarios)**

Directions: During each of the presentations during Activity #4, except your own, you will summarize the key points. You will do this by answering the questions below. This will illustrate your understanding and provide proof of participation and listening. Be sure to answer the question in complete sentences, using the space provided

Scenario # _____ **Title:** _____

Summary of Scenario / Experiment

Explain how the GeneChip® micorarray was used in this situation

What were the results of the experiment or test?

Scenario # _____ Title: _____

Summary of Scenario / Experiment

Explain how the GeneChip® micorarray was used in this situation

What were the results of the experiment or test?

Scenario # _____ Title: _____

Summary of Scenario / Experiment

Explain how the GeneChip® micorarray was used in this situation

What were the results of the experiment or test?

Scenario # _____ Title: _____
